MATERIAL SUBSTANCE

The issues and concerns of the ANC about the appeal, petition, or application as related to the standards of the Zoning Regulations against which the appeal, petition, or application must be judged (*a separate sheet of paper may be used*):

ANC 5D Commission supports granting the requested special exception because strict application of the above-referenced zoning requirement would require significant restructuring of the roof and mechanical duct work, and require additional construction disturbance among community residents. By granting this special exception, it will not result in substantial detriment to the public good or substantially impair the intent, purpose, and integrity of the zoning regulation or plan, provided that certain conditions are met. The Commission supports granting the requested relief only on the condition that the applicant agrees to investigate the 24-hour long building lighting issue posed to the residents of Holbrook Street NE and minimize the number of hours lights are shining directly onto residents' homes.

The recommendation, if any, of the ANC as to the disposition of the appeal, petition, or application (*a separate sheet of paper may be used*):
